## AMS 5629 - Ph 13-8MO Stainless Steel

Typical Applications

Fasteners

| 1 431511313   |  |                        |  |  |  |
|---|--|------------------------|--|--|--|
| Valves  |  |                        |  |  |  |
| Fittings  |  |                        |  |  |  |
| Petrochemical Components  |  |                        |  |  |  |
| Aircraft Structural parts   |  |                        |  |  |  |
| PH 13/8 MO is a precipitation hardening stainle specifications.   | ess steel alloy that conforms to the AMS 5629, | , AMS 5864, AMS 5862   |  |  |  |
| This material is characterised by excellent strettemperatures.  | ngth, corrosion resistance, and toughness at b | ooth room and elevated |  |  |  |
| PH 13/8 MO (uns s13800) is often used in aerospace, chemical processing, and power generation applications where high strength and corrosion resistance are essential. The material is not particularly easy to work with due to its high strength and toughness, which can make cutting and machining difficult. However, with the proper equipment and techniques, it is possible fabricate and form PH 13/8 MO into complex shapes and components. |  |                        |  |  |  |
| It is a medium to high strength material achieve good resistance to stress corrosion. PH 13/8MeVacuum Arc Remelting (VAR).  |  |                        |  |  |  |
| ,   | Technical specification                        |                        |  |  |  |
|   | Related Specifications                         |                        |  |  |  |
|   | AMS 5629                                       |                        |  |  |  |
|   | AMS 5862                                       |                        |  |  |  |
|   | UNS S13800                                     |                        |  |  |  |
|   | W.Nr 1.4534                                    |                        |  |  |  |
|   |  |                        |  |  |  |
|   | Specific Gravity                               |                        |  |  |  |
